Evaluation of Allocation of Sports Premium Funding (Academic Year 2016- 2017)

The government is providing additional funding of £150 million per annum to improve provision of physical education (PE) and sport in primary schools. This funding - provided jointly by the Departments for Education, Health and Culture, Media and Sport - is being allocated to primary school head teachers. This funding is ring-fenced and therefore can only be spent on provision of PE and sport in schools.

At St Joseph's we have developed an action plan in order to continue to improve PE provision and raise achievement for all pupils in sport.

Our priorities mean that the funding for 2015/2016 will:

- Develop staff expertise in teaching in gymnastics, dance and invasion games skills, through providing additional training and professional development and covering classes to enable teachers to do this.
- Continue to provide quality coaches for teaching some PE lessons across the school
- Increase participation in sport through the provision of additional before school lunchtime and after school clubs
- Increase participation in local Learning Community and county-wide competitions and tournaments. (This could be through a sports partnership with Rawmarsh Learning Community or St Pius learning Community.) This is mainly facilitated by ensuring we have transport for tournaments and activities that take place with the St Pius Learning Community.
- Purchase additional PE resources to enable a wider range of sports to be played (volleyball, orienteering, badminton and table tennis)
- Enhance the swimming skills of children in Year 5 who were not successful after their initial sessions and sessions for Year 4

**How much do we get?**

We received a total of £8800.

**How is it spent?**

A large portion of our funding has been spent by purchasing the services of SJD Sports and RUFC. This agreement aims to maximise the impact the funding can have. The benefits of this partnership are listed in the breakdown below together with our own uses of the funding.

Please find below a breakdown of how the funding has been allocated for 2015/2016:

<b><u>Initiative</u></b>	<b><u>Cost</u></b>	<b><u>Expected Outcome</u></b>	<b><u>Impact</u></b>
